How F260 Works:

Read ONE chapter of the New Testament each day, Monday-Friday.

Apply the HEAR Journaling Strategy: to Highlight, Explain, Apply, and Respond to the text for each day. Our goal is NOT to read the New Testament through in a year, but to HEAR from God, a little each day.

Attend ONE Small Group each week, to discuss what the Holy Spirit taught you in your reading that week. What specific personal illumination or application does God have for you in his Word?

Weekends—Saturday is to catch up on reading, Sunday is to worship together.

Using the HEAR Strategy: FOR _____

H = Read the chapter and discover just ONE verse that jumps off the page, HIGHLIGHT that verse and meditate on it.

E = Now seek to EXPLAIN what that verse means. What is the context? What comes before and after the word, phrase, passage, or chapter? How does this relate to the rest of the book or the Bible? Is this literal or figurative language? Is the text prescriptive (to DO something) or descriptive (information)? What does the verse teach about Jesus, theology, myself, others, or God's mission?

A = APPLY the text to your life. What does passage teach about God? What does it mean today? How can I apply it's teaching? Is there an action or attitude that I must avoid or embrace? What is God saying to me?

R = How is God moving me to RESPOND to what I read today? Is there a call to action? Is there something God wants me to do or pray about? How does my life need to change or transform?

The Following Pages are for you to Record Your Time with God...

FOR EACH DAY—ASK QUESTIONS LIKE THESE:

What is God showing me on this day?

What is God saying to me on this day?

What will I do with this truth since God brought it up?

What will I write about what I discovered today?

What is the warning, promise, or encouragement?

How will my life change having discovered this truth?

How will I pray this back to God?
